

REXT ST28EU

PM28 EXTRA TRANSMITTER

Manufacturer: [EBODE](#)

Description

EXTRA TRANSMITTER

Wireless Infrared Extender

wide band 30-60 kHz incl NEC, RC5/6, RCMM, XMP, etc.

This is the smallest wireless IR Extender currently available on the market. Control any A/V source such as Cable box, Satellite receiver, DVD, VCR, HiFi, from a distant TV, with your existing remote control, even through walls and ceilings! Range up to 30 meters (depending on environmental conditions).

Our ebode proprietary eIR2x (pronounce Irex) Technology guarantees a high level of immunity for InfraRed noise from direct sunlight, CFL lighting and Flat Panel TV's (including Plasma, LCD and LED).
