SOCKET | 1x GB LAN | 2400MBIT/S

Manufacturer: [DEVOLO](#)

Description

devolo Magic 2 LAN means that the future belongs to multi-media. Streaming the latest blockbuster in 8K, surfing with amazing speed, playing online games with friends – you can do it all with the simple, elegant devolo Magic 2 LAN Powerline adapter. As though through invisible channels, it brings the internet to right where you need it. Connect whatever terminal devices you want – Smart TV, console, or PC, for instance – with your home network and enjoy new, magical internet from your wall socket.

Welcome the digital future in your own four walls! How? With the devolo Magic 2 LAN and its magical properties. It makes you ready for beyond tomorrow - today. Streaming, gaming or home office become a fantastic experience. Thanks to innovative Powerline technology, you really do have fast and reliable access to the network in literally any corner of your home. devolo Magic 2 LAN achieves incredible peak speeds of up to 2400 Mbps for pure digital freedom. And it does so over distances up to an impressive 500 metres. One Gigabit LAN incorporates your static devices such as smart TVs or consoles. With super-smart Plug & Play, you can get surfing straight away. Simply unpack, plug in and enjoy amazing connections. You can also keep a close eye on all of your devolo Magic adapters very easily via the innovative devolo App. More magical Internet enjoyment now and in the future - with the devolo Magic 2 LAN! Innovative technology

You dream of the future – and devolo Magic 2 LAN brings that dream home to you! The [Powerline](#) adapter provides magical internet in any room and is incredibly fast at 2400 Mbps. Its intelligent Plug & Play also makes it fantastically simple to operate. Connect the adapters to each other via the wall socket, and your magical network is ready to go. All Magic products can be used together and are compatible with routers of any type. Existing dLAN networks do not impair the stability or function of the Magic network and can be operated parallel to it. devolo Magic 2 LAN uses the innovative G.hn standard, is certified by the HomeGrid Forum, and prepares your home network for the future right now. The adapter also uses the especially effective MIMO transmission system, which performs far better than conventional SISO systems.

- Via unseen pathways: the innovative Powerline technology gets you on the Internet anywhere in the house via the fastest and most reliable route - for a multi-media experience of the very best quality.
- Exceeds your imagination: surf the net at up to 2400 Mbps! Streaming, gaming, home office - and all of them magically easier, faster and more reliable than ever before.

- All-in: connect your static devices such as smart TVs, consoles or PCs via the Gigabit LAN connection.
- We've thought of everything: thanks to the integrated power socket, you won't lose out on any power connections.
- The perfect solution for long distances: easily covers large distances and always provides a strong connection, even over distances up to 500 metres. From the cellar to the attic and over to the garage - simply all through the house.
- Organises the setup: Simply plug into the power socket - and thanks to the smart Plug & Play, the adapters connect to each other in just a few seconds.
- Top-end technology from Germany: since 2002, devolo has been developing innovative products with passion for millions of happy, networked customers all over Europe. With more than 300 awards to its name.
- A real team worker: compatible with all routers, devolo Magic adapters and HomeGrid Forum-certified products. dLAN® Powerline adapters and other HomePlug AV products are not supported. Different technologies can be used in parallel in a single household.
- Our promise: 3-Year manufacturer's warranty.

Please note: Compatible with all routers, devolo Magic adapters and HomeGrid Forum-certified products. dLAN® Powerline adapters and other HomePlug AV products are not supported.
