Mesh Wi-Fi | SOCKET | 2x GB LAN | 2400MBIT/S

Manufacturer: [DEVOLO](https://www.devolo.com)

Description

devolo Magic 2 WiFi next

Wi-Fi with Mesh

Multi-User MIMO-Technology

Up to 2400 Mbps

2x Gigabit LAN

Range up to 500 meters

Internet without speed limits. Magic 2 WiFi next brings your home Internet to a new level. Thanks to outstanding Powerline technology at speeds up to 2400 Mbps, the full power of your Internet connection is transmitted directly into any room over the electrical wiring. This turns any power socket into a potential access point for high-performance Whole Home Wi-Fi. Multiple devolo Magic adapters connect automatically to form a seamless mesh network. This network lets you browse without interruptions and without ever losing any Wi-Fi strength. And it doesn't matter how many terminal devices you have online. Thanks to Multi-User MIMO technology, multiple terminal devices are supplied with a higher transfer rate at the same time. For maximum connectivity, Magic 2 WiFi next is also equipped with two more Gigabit LAN ports. It is the world's fastest Powerline adapter and its top-notch features make it a networking powerhouse for your entire home. Experience the devolo Magic benefits for the next generation now – of course, securely encrypted and with the future-proof G.hn standard.

- Powerline is the best Wi-Fi solution: The Internet is transmitted to any room through ceilings and walls over the electrical wiring. More reliable than any repeater!

- Mesh upgrade: Now featuring Access Point Steering – make your web browsing even smoother and get rid of connection hiccups – no matter which room you're in. Your end device connects to the strongest Wi-Fi signal automatically.

- Latest Multi-User MIMO for better reception: Multi-User MIMO technology means that multiple end devices are provided with maximum Wi-Fi capacity at the same time. Everyone can enjoy gigabit Internet simultaneously.
- Future-proofed thanks to G.hn: When you use G.hn, you're relying on cutting-edge technology that will give you extremely high speeds, increase your stability and boost your range.
- Maximum security: devolo products are in line with the most recent encryption standards (WPA2/WPA3). This means that they ensure the protection of your data (banking standard).
- Cutting-edge technology from Germany: devolo has been developing standard-setting products since 2002 for millions of customers throughout Europe – distinguished with more than 400 awards.
- devolo Home Network app: Set up parental controls, guest Wi-Fi and time control settings with ease!
- Our promise: Three-year guarantee.
